

BIOLOGY

21st November 2009
08.30 to 15.00 hours
(Registration: 08.15)

VENUE:
John Borg Hall
(Science Lecture Theatre),
University of Malta, Msida.

The latest results of student research projects in biological sciences will be discussed during the **BIOLOGY SYMPOSIUM** being organized by the Department of Biology of the University of Malta, in collaboration with the Environment Protection Directorate (MEPA).

- Water quality and pollution studies in various locations including Gozo
- New data on local sites of ecological importance such as Ta' Ġordan, Gozo and Ġnien Ingraw
- Nesting activities by an endangered bird species at Rdum tal-Madonna, Mellieha.
- New studies on the biology of rocky shores
- Studies in local fisheries and aquaculture
- Population genetics and conservation of local species
- Studies on bioactivity and potential use of plant extracts.

For further information and registration contact: Department of Biology on 2134 2488 or email victor.axiak@um.edu.mt or tiziana.bartolo@um.edu.mt

Registration would be also available at the Reception Desk on the day of the Symposium at 08.15 hours. A registration fee of 5 euro covers coffee break and an illustrated ABSTRACTS booklet
